Graduate positions in a strategic brand consultancy, specialising in creating value for the brands and marketing initiatives of blue-chip clients in a range of industries.

The role involves elements of marketing consultancy, market research, new product development and advertising in a hard-work, informal environment.

Typical responsibilities for a Marketing Analyst involve helping run client workshops, attending client meetings, writing reports and presentations and assisting on the day to day running of projects.

We encourage (and train) our new joiners to develop client facing consultant skills from day one, working on projects which include brand visioning and positioning, marketing planning and strategy and new concept development. We take graduate recruitment very seriously, as demonstrated by the fact that our current CEO was our first graduate recruit.

**Internships and Work Experience:** Internships: typically one per year. 8 week summer internship for undergraduates at the end of their penultimate year.

**Recruitment Criteria:** Applications from undergraduates and recent graduates of any discipline who combine the necessary creative and analytical qualities, and who have an interest and affinity with brands.

**Training:** Mixture of ‘on-the-job’ with additional scheduled and ad-hoc training modules.

**Application Process:** CV and covering letter, with 300 words on a brand that you feel passionate about.
