**Trinity Term 2018 Micro-Internship Programme**

**All second round placements**

Micro-internships take place in 9th or 10th week (18-22 or 25-29 June 2018). The second round application deadline is **midday, Wednesday 16 May**. To view all vacancy information and apply, please follow the links to CareerConnect.

**AI Gaming.com - Game/Puzzle/Challenge Developer (MIP)**

Do you want to develop games and logic puzzles with the team at AI Gaming.com? AI Gaming is an innovative, technical startup based near Oxford, and we are looking for a team of interns to write 'bots' to play on our gaming platform. Will your bot be good enough to be selected as one of AI Gaming's new House Bots and play against people from all over the world? Sign up for a micro-internship with AI Gaming.com and use your coding skills to develop bots for us.

**Enterprising Oxford - Social Media and Marketing Analyst (MIP)**

Enterprising Oxford is a University of Oxford initiative to help encourage and support students, staff and alumni to be more entrepreneurial, and promote entrepreneurship across Oxfordshire. Building on previous work on quantitative analytics, we are now looking for an intern to undertake a qualitative analysis of the interactions, comments, and outputs from the campaign and make recommendations for future work. As it was a joint project there will be the opportunity to see how various sections of the University work. It will be a self-contained project and very useful for deciding whether to run the campaign again.

**Graduate Admissions, University of Oxford - Research Micro-Intern (MIP)**

During the micro-internship, the Research Micro-Intern will be conducting bibliographic research on the history of the PhD, the introduction of the DPhil at degree at Oxford and more generally the organisation, in terms of degree qualifications, of universities at the beginning of the 20th century. They will also research the first DPhil student and gather as much information as possible about this person and the thesis he produced and published. It is expected that the output at the end of the internship will be a bibliography on the subject and a written summary of the findings to date.

**Hill End Centre - Business Development Micro-Internship (MIP)**

Hill End gives young people the chance to be close to nature, with the space and time to explore and appreciate the wonders of the natural environment. The Centre has recently transferred from local authority ownership to charity status. You will be supporting the business development of this new charity, reviewing and establishing a new Customer Relation Management system. You will be based at a busy outdoor learning centre and will work closely with centre staff to deliver real, working solutions for an amazing organisation.

Mental and physical healthcare consultancy (MAP) is a recently launched consultancy based near Oxford. MAP works with individuals and groups to improve both their mental and physical health. The primary responsibility of the intern will include the preparation, quality control and production of an online course about resetting the gut microbiome. The software is already available, so the project is to take the information and make it understandable for the general public as an online resource: an exciting 'blank piece of paper' project!

Oxford Sparks, MPLS Division, University of Oxford - Developing Role Model Profiles: An Equality and Diversity Project (MIP)

Many young people enjoy science, but don’t want to be scientists. Research suggests that this attitude forms by the end of primary school and is linked to a lack of awareness of what scientists do, and unhelpful images of who scientists are. We are looking for micro-interns to help us expand our ‘Just Add Imagination’ project, designed for parents, by creating informative role model profiles and fun science-based activities for parents to do at home with their children.

Oxford University Careers Service - Internship Expansion and Research Micro-Intern (MIP)

The Internship Office was established in 2012 to provide professional and research placements exclusive to undergraduate and postgraduate Oxford students. Our successful Micro-Internship Programme is undergoing expansion, and the Office aims to increase opportunities in other UK cities and Germany. To assist with this aim, you will be conducting research into new locations and organisations, primarily in Germany, correlating this with student demand and the needs of our diverse range of students. This is a fantastic opportunity to use your initiative and resourcefulness whilst gaining insight into a busy University department.

---

**World Experience Exchange - Charity/Research Internship (MIP)**

World Experience Exchange is a not-for-profit social enterprise with a mission – “To bring together those with, skills, education and expertise - with those who can apply them to the best use in the developing world.” You will be remotely working with a charity in Uganda, to help them develop and increase their impact within their community. Your research into new approaches and best practices from elsewhere in the world will form the basis for new initiatives and approaches. This is a great opportunity to exchange your skills and passion, for the experience that is Africa, and to make a difference to those less fortunate in the developing world.
