

In-person

# SUMMER GRADUATE AND INTERNSHIP FAIR

 **Tues 7 June 2022 | 14:30-17:30**

 **Careers Service**  
56 Banbury Rd, OX2 6PA

Meet a diverse range of recruiters who are offering graduate opportunities, full-time jobs and internships starting this summer.

[www.careers.ox.ac.uk/summer-fair](http://www.careers.ox.ac.uk/summer-fair)

# Welcome to the Summer Graduate and Internship Fair 2022

Are you graduating soon and have not yet secured a job? Are you looking for an internship this summer?

Meet recruiters from a range of sectors who are offering full-time jobs and internships starting this summer.

Whether you haven't found a place yet, or haven't started looking, this is a great chance for you to explore available opportunities and careers.

## Top tips

Use this booklet to plan your fair tactics:

- Check who is attending and read their booklet entry before you speak to them.
- Plan some questions to ask e.g., what are the pros and cons of their work? Or what tips can they give you to increase your chances of being selected for work experience or employment?
- Talk to as many people as you can.
- Remember to record who you spoke to and key points of your conversations.

# AlphaSights

---

Looking for a commercial role with high autonomy and the ability to make an impact up front? Do you want to work in a high-performance, high-support environment where you manage blue-chip client relationships? If so, the Associate Program is for you.

## About AlphaSights

AlphaSights is the global leader in knowledge on-demand. We connect investment and business leaders with a dynamic network of industry professionals whose informed perspectives help our clients make superior investment and business decisions. With 1200+ employees and nine offices across the US, Europe, Middle East, and Asia, AlphaSights regularly ranks as one of the fastest-growing companies in the world.

## Graduate Associate Programme

The programme has four start dates, in January, April, July and September, 2022. Applications are open for July and September 2022.

We accept many international graduates onto the Programme and provide visa sponsorship if you speak fluent German, French, Swedish, Spanish, Italian, Danish or Dutch.

Find out more at: [www.alphasights.com/careers/open-roles/](https://www.alphasights.com/careers/open-roles/)

# Anima

---

At Anima, we build advanced software for GP practices & primary care doctors.

Anima has been described by GPs as "the most advanced GP consultation platform around", and we're live in NHS GP practices across the country that provide care for over 100,000 patients combined.

We're backed by Y Combinator, the home of epic companies like Airbnb, Coinbase, Stripe and more, plus a top 1% VC fund.

Anima's CEO is an ex-doctor, and the majority of the team are ex-clinicians who can code - our so-called 'clinical engineers'. We're looking to add talented software engineers, medics (who can or can't code!), designers and account managers who are hungry and understand the urgency and importance of what we're doing for society. Join Anima & you'll solve super interesting technical problems that will save lives.

Find out more at: [www.animahealth.com/careers](https://www.animahealth.com/careers)

## Archangel Aerospace Group

---

Archangel Imaging is an AI startup transforming the way we protect people and assets in remote and challenging locations. Our journey started with a belief that the world's most challenging problems will be solved by humans and smart machines working together.

Our team have a track record of delivering novel award-winning technology for high-profile organisations including Network Rail, Ministry of Defence as well as overseas wildlife-conservation parks. We have a world-class team with a forward-thinking culture too. Our leadership team have decades of technical leadership experience in aerospace & embedded engineering, having worked at Airbus, Qinetiq, British Army, Nokia, Thales. Many of our team also graduated from world-leading universities, including Oxford University, and we are part of selective communities like TechNation, Creative Destruction Lab and Oxford Foundry.

Since then, we have been augmenting machines to be smarter, more resilient, and collaborative on #AIforGood projects such as GNSS-denied navigation, rail safety and antipoaching. We're on a winning streak and are looking for new teammates to scale with us and help build a more collaborative future. If you like the sound of us, chances are we'll like the sound of you, so connect with us at the Oxford Summer fair 2022!

Click [here](#) to learn more about Archangel Imaging. We are proudly based on the Harwell Campus, Oxfordshire.

## Axiom Healthcare Strategies

---

Axiom was founded in 2016 and is the premier strategy and management consulting firm serving biotechnology, pharmaceutical, and health care provider clients, with a focus on oncology and rare disease. Our engagements deliver exclusively high value-add for our clients' most critically important issues. Axiom's Think Tank philosophy of consulting also drives external, non-transactional work in which we seek to give back and shape the future of oncology and rare disease care.

At Axiom our people are excited to help clients address their most pressing challenges. We leverage the flexibility and expertise of our diverse network and organization to bring an unparalleled client experience based on our team's combination of skill sets: strategic problem solving, rigorous analyses/methodologies, and clear and concise communications.

Find out more at: [www.axiomhcs.com/join-us](http://www.axiomhcs.com/join-us)

## Ayming UK

---

Ayming UK is an international innovation and performance consultancy, combining highly specialised knowledge – across a range of fields – with hands-on collaboration to enable our clients and their people to go further.

In addition to the above, Ayming is Europe's largest R&D incentives advisor, with offices across Europe, Asia and North America, and research and development incentives experts in every sector, from construction and engineering to biochemistry and sustainability.

Find out more at: [www.ayming.co.uk/careers/vacancies/](http://www.ayming.co.uk/careers/vacancies/)

## Brand Finance Plc

---

BRAND FINANCE plc is an internationally renowned consultancy, specialising in advising strongly branded organisations on how to maximise shareholder value through effective management of their intangible assets.

### Services

- Valuation – of business brands and other intangible assets for investment strategy, litigation, financial reporting, tax and marketing.
- Analytics – marketing budget optimisation, brand equity analysis, brand dashboards.
- Strategy – brand and commercial strategy evaluation, licensing and architecture, brand extension, portfolio reviews.
- Transactions – brand sale or purchase, fundraising, licensing & franchising.

Brand Finance works with the CEO's, CFO's and CMO's of blue-chip clients on high profile financial and marketing assignments. The company is headquartered in the UK but has 25 subsidiary and partner offices, including Sydney, Singapore, Amsterdam, Mumbai, Istanbul, Lisbon and Johannesburg.

Brand Finance is recruiting for several articulate, self-motivated and enthusiastic graduates for graduate analyst consulting positions at our office in central London. Individuals would be required to have a strong aptitude for economics and finance and a good knowledge of Microsoft Office (in particular Microsoft Excel for financial modelling).

## Celestia Technologies Group (UK) Ltd

---

We are looking forward to meeting you and talking about the amazing opportunities available to you at Celestia UK. With amazing teams based in both Harwell and Edinburgh, it's an exciting place to launch your career!

Celestia Technologies Group (UK) Ltd is part of an international technology group with expertise in Antenna, Radio Frequency and Digital Signal Processing (DSP) technologies. We are designing the next generation of very high data throughput satellite communication gateways that use phased-array antennas, which recently received an 'Innovation of the Year' award. These will be used for communicating with satellite constellations that are gathering earth observation data and providing access to the internet. We are working in collaboration with the European Space Agency (ESA), UK Space Agency and other commercial partners.

**CelestiaUK**

Find out more at: [www.celestia-uk.com](http://www.celestia-uk.com)

## Cerillion

---

Cerillion is a leading provider of billing, charging and customer management systems with more than 20 years' experience delivering its solutions across a broad range of industries including the telecommunications, finance, utilities and transportation sectors.

The most important resource Cerillion has is its people and, as such, we seek to employ highly skilled, experienced and enthusiastic individuals who are keen to build a career with a global software company.

Find out more at: [www.cerillion.com](http://www.cerillion.com)

## CGG UK

---

CGG is a global geoscience technology leader and industry pioneer with a history of over 90 years of pushing the scientific boundaries of what is possible. Employing around 3,700 people worldwide, we provide a unique range of data, products, services and solutions to solve the complex natural resource, environmental and infrastructure challenges of our clients.

Join us to deliver unrivalled geoscience insight to our clients, through the use of cutting edge geophysical, geological and data science techniques and our unparalleled high-performance computing.

## Costello Medical Consulting Ltd

---

At Costello Medical, we enjoy building lasting partnerships in the healthcare sector by providing an exceptional service. Our vision is to be a community of the very best people, constantly challenging ourselves to make meaningful and outstanding contributions to improving healthcare.

Our experts support the healthcare sector in the analysis, interpretation, and communication of clinical and health economic data; our service offerings include evidence development, statistics, health economics, HTA, real-world evidence, market access, medical affairs, publications, and design.

We are one of the most established independent agencies delivering medical communications and health economic services. We have grown organically since foundation in 2008 to a team of over 300 based in Cambridge, London and Manchester in the UK and internationally in Singapore, China and the US.

Our talented team has experience with a variety of leading pharmaceutical and device companies across an extensive range of therapy areas and geographies, including Europe, Asia Pacific, and North America.

Costello Medical recently achieved a 3-star accreditation with Best Companies™ and we have been listed in The Top 100 Companies to Work For list for five consecutive years.; these awards are testament to our commitment to excellent customer service coupled with high quality scientific deliverables.

Find out more at: [www.costellomedical.com](http://www.costellomedical.com)

## d-fine Ltd

---

d-fine is a European consultancy firm with over 1,000 employees, distributed across seven offices in four countries. The focus is on quantitative issues and the development of sustainable technological solutions. d-fine's consulting approach is based on many years of practical experience driven by employees with analytical and technological skills. This combination has proven itself with more than two hundred clients across all sectors of the economy, thanks to its custom-fit, efficiency and sustainable implementation.

To expand our consulting team, we are looking for students/graduates of physics, mathematics, computer science or natural sciences, engineering and economics with quantitative or technological specializations. You must have a very good academic record, be fluent in English and have a high mathematical and/or technological affinity. In addition to strong analytical skills and a result-oriented approach, we attach great importance to social competence. Team building instead of elbow society is part of our company philosophy and is reflected in project structures, employee development and incentive systems.

Our aim is that you feel at home with us and are motivated for the long term. That is why we offer you, in addition to exciting projects, a collegial team, attractive career and salary model, as well as a wide range of additional benefits, such as our extensive training program as part of the d-fine Academy.

## ESA - European Space Agency

---

We are the European Space Agency.

Our mission is the peaceful exploration and use of space for the benefit of everyone.

We watch over Earth, develop and launch inspiring and unique space projects, train astronauts and push the boundaries of science and technology, seeking answers to the big questions about the Universe.

We are a family of scientists, engineers and business professionals from all over Europe working together in a diverse and multinational environment.

We are dedicated to united space in Europe and united Europe in space.

Find out more at: [jobs.esa.int](https://jobs.esa.int)

## EUDRAC Ltd

---

Do you want to use your life science degree in a non-lab based role?

Regulatory affairs is the exciting profession that allows you to see the development of a medicinal product from conception, through clinical trials and onto authorisation and reaching patients, often for life-changing conditions. EUDRAC is a specialist regulatory consultancy providing support to pharmaceutical companies to develop their products in the EU and UK. We help our clients to:

- prepare clinical trial applications
- request scientific advice from EMA/MHRA
- request rare disease status
- agree paediatric investigation plans with EMA/MHRA
- submit marketing authorisations for final approval of the product
- maintain the product on the market

Alongside working with us, we will support you in obtaining a qualification in regulatory affairs through the primary professional body, [TOPRA](#).

Come and ask us about our opportunities in our office 8 miles east of Oxford. We operate a hybrid working environment (3 days office / 2 days remote).

Find out more at: [www.eudrac.com](http://www.eudrac.com)

## Ferguson Partners

---

As a talent management boutique with global reach, **Ferguson Partners** go the extra distance with our expertise and experience to bring our clients tailored strategies that stand the test of time. Independent and employee-owned, we bring great pride, care, and passion to every engagement.

We are looking for **bright, motivated and conscientious graduates to join the team in London within Executive Search**. We offer a fantastic opportunity for quick career progression from Researcher to Consultant in a friendly and collegiate environment working with blue-chip clients. If you **enjoy research and are commercially-minded**, Executive Search is a great career option to develop your skills.

With a strong concentration of **real estate** and **real assets** clients and deep expertise in hospitality and healthcare services, we are able to access talent from both inside and outside a variety of industries.

Our attentive and closely connected team collaborates across North America, Europe and Asia-Pacific to help clients fill their hiring needs.

Find out more at: [www.fergusonpartners.com](http://www.fergusonpartners.com)

## gaitQ Ltd

---

gaitQ is a spinout from the University of Oxford developing a wearable, smart medical device aimed at restoring mobility in people with Parkinson's.

Based in central Oxford, we are growing our team across many functional areas at this exciting stage for the company.

Around 45% of people with Parkinson's eventually develop gait-freezing, an intermittent failure to initiate or maintain walking – often described as the most debilitating symptom of the disease. gaitQ's first product is a cueing device that helps individuals overcome gait-freezing episodes and maintain their levels of activity for longer. gaitQ features personalised, adaptive cueing during periods of gait-freezing in a discrete, unobtrusive device. Powered by proprietary machine learning algorithms, gaitQ's technology has been in development for more than three years within Oxford University's Institute of Biomedical Engineering (IBME) and the Department of Physiology Anatomy & Genetics (DPAG). A recent clinical study has demonstrated preliminary efficacy results showing a reduction in gait freezing events of 55%, a reduction of freeze duration of 73%, and an overall improvement in walking metrics.

Find out more at: [www.gaitq.com](http://www.gaitq.com)

## Global Water Intelligence

---

**Global Water Intelligence (GWI) is the leading publisher and events organiser serving the international water industry.**

With offices in Oxford, Shanghai and Austin, we publish market-leading magazines, databases, and reports on the international water industry and run a series of successful events that are attended by delegates at the highest and most expert level of their profession.

Over the last 15 years we have built our business around being a trusted interface between our clients and their markets, providing our customers with the high-level intelligence that enables them to make the most informed strategic decisions for their business. We have developed our products and services to cover all key segments of the international water sector, including desalination and reuse, finance, digital solutions, utilities and industrial water.

Whether you join GWI in a research, marketing, sales and customer success, data design or programming business function, you'll join a team with a shared set of values: we are endlessly curious, we don't give up, we care about the quality and reliability of our work, we strive for honesty and integrity, and we work brilliantly together.

Find out more at: [www.globalwaterintel.com/about-gwi/careers](http://www.globalwaterintel.com/about-gwi/careers)

## Hurstpierpoint College

---

Hurst College offers an outstanding Teacher Training programme for graduates, to start in September 2022.

We are looking for enthusiastic and motivated graduates with a good degree, 2:1 or better and welcome applications from recent graduates and those looking for a career change. We offer a high quality, fully-funded, 4-year programme of teacher training, with free all year-round accommodation, term time meals and a starting salary of £23,760. Many of our trainees have continued into positions of responsibility such as Head of Year, Head of Department or Faculty within the College, a testament to the success of the programme.

Previous trainees have said:

*"The Teach Hurst programme is a fantastic and rare opportunity."*

*"I felt supported and encouraged throughout the process, secure in the knowledge that I have received outstanding teaching training."*

Find out more at:

[www.hppc.co.uk/about-us/teach-hurst-teacher-training/](http://www.hppc.co.uk/about-us/teach-hurst-teacher-training/)

## INSEAD

---

The INSEAD PhD rigorously trains students in research, honing their skills to become management professors and secure top academic placements worldwide. For the mid-August 2023 intake, the programme seeks 16-18 bright potentials passionate about research, whose primary aim is to pursue a successful career in business academia. Regardless of background, prospects apply in one of the specialisations offered: Accounting, Decision Sciences, Entrepreneurship, Finance, Marketing, Organisational Behaviour, Strategy, and Technology and Operations Management.

Briefly, INSEAD PhD students:

- Become part of a diverse community of faculty experts and like-minded peers
- Secure top academic placements in leading business schools globally
- Study in Asia and Europe, go for exchange with Wharton and benefit from the INSEAD-Sorbonne Alliance
- Receive [annual funding for 5 years](#)

Applicants with bachelor's or master's degrees and with or without research experience are welcome to apply. Moreover, a management background is not compulsory before applying. With the INSEAD PhD being highly interdisciplinary, it continues to attract students from non-management backgrounds.

## Meinhardt (UK) Ltd

---

Meinhardt UK is a major Multidisciplinary Engineering Design Consultancy. We combine a 'one-stop-shop' approach with a can-do attitude towards our work.

We are an international and truly independent multi-disciplinary firm of ~5000 consulting engineers, planners and managers with an impressive track record of designing some of the world's most notable buildings.

Formed in Australia in 1955 by Bill Meinhardt, the [Meinhardt Group](#) has over 51 offices worldwide, providing engineering capabilities across all sectors of the built environment.

Established in the year 2000 in London, 2019 in Birmingham, and 2021 in Reading and Glasgow, Meinhardt UK provides hands-on multi-disciplinary integrated engineering services delivered seamlessly in the areas of Civil, Structural, Building Services, Façade, Mobility (Transport), and other specialist related engineering disciplines. The result is an integrated approach empowered to improve the building process.

Find out more at: [meinhardtgroupp.com](https://meinhardtgroupp.com)

## MOTION METRICS LTD (CARV)

---

Carv is the world's first digital ski coach. The smart inserts, each containing 36 pressure sensors, and trackers retrofit to any ski boot to measure motion and pressure data. This data is then sent via bluetooth to the Carv app and we have worked with top level instructors from PSIA, CSIA & Interski to create algorithms that use the data to effectively assess ski technique.

Carv broke the record for a sports wearable on Kickstarter and has approximately doubled revenues each year; our company is underpinned by the development of a completely novel technology, delivering automated digital coaching.

We are pioneering a new type of sports wearable device within the fast-growing sports-tech industry. Thus far sports wearables have focused on tracking and motivation; Carv offers a teaching and coaching service, forging a new path within this sector. Disrupting the ski industry is the beginning.

Find out more at: [getcarv.com/lp/careers](https://getcarv.com/lp/careers)

## Oakford Advisors

Find out more at: [www.reply.com/en/about/careers/uk/](https://www.reply.com/en/about/careers/uk/)

## Teach First

---

Young people from disadvantaged backgrounds in this country are being let down by one of the most unfair education systems in the developed world, and the knock-on effect of this injustice lasts a lifetime. It's a cycle we're determined to break, but we need your help.

On our two-year Training Programme, we'll support you to become a qualified teacher through a fully-funded Postgraduate Diploma in Education and Leadership. By training on the job, you'll have an immediate impact on the lives of the young people who need you the most.

And, whether you choose to remain in the classroom or pursue another career after the programme, you'll benefit from Teach First's influential network of organisations and businesses who share our commitment to ending educational inequality and value the skills and experience our participants gain.

After the two years, more than half of our trainees continue teaching in schools, many progressing into leadership positions. Others move into positions in government, industry and their own social enterprises, remaining connected to our goal of ending educational inequality.

Since 2002 Teach First has been finding and developing talented people to teach and lead in schools facing the greatest challenges, helping to change the lives of more than one million disadvantaged children so far.

Join us and help build a fair education for all.

Find out more at: [www.teachfirst.org.uk](http://www.teachfirst.org.uk)

## The Phoenix Partnership (TPP)

---

TPP is a world-leader in Digital Health. From apps enabling patients to manage their own care to comprehensive hospital solutions, TPP delivers technology that connects everyone involved in healthcare delivery.

For over twenty years, we have been applying the most advanced technology to provide a safe and secure environment to deliver care.

Our aim is to improve access to healthcare data, making sure it is available whenever and wherever it is needed.

We want to help people make the best use of that data, to empower clinicians and citizens, and to create the healthcare systems of the future.

Find out more at: [tpp-careers.com](https://tpp-careers.com)

## The Veritie Group

---

The Veritie Group has developed an advanced technology platform for the non-invasive and non-destructive analysis of complex substances using Raman spectroscopy.

Our technology platform enables the development and commercialisation of bespoke Raman spectroscopy solutions for anti-counterfeiting, quality control and diagnostic purposes across various industries.

We are looking to recruit both hardware engineers and programmers in the upcoming year. We are currently actively searching for someone with a degree in physics or a similar subject who has a mastery of optics, lasers and preferably spectroscopy. Hands on lab skills are a must, preferably at a postgraduate level.

We are a small dynamic team who likes to solve challenging physics problems and commercialise cutting edge equipment and algorithms. We look for bright minds that think outside the box, irrespective of age or background, and we are open to applications that don't necessarily tick all the requisite boxes.

Find out more at: [www.veritiegroupp.com](http://www.veritiegroupp.com)

## The World Bank Group

---

With 189 member countries, staff from more than 170 countries, and offices in over 130 locations, the World Bank Group (WBG) is a unique partnership: five institutions working for sustainable solutions to reduce poverty and build shared prosperity in developing countries.

Our Young Professionals Program (WBG YPP) is a starting point for an exciting career with us. For close to 60 years, the program has recruited some of the brightest young minds to contribute to our top priorities, from poverty eradication, social development and climate change, to the current response to the COVID-19 crisis. We are looking for applicants who display a passion for international development/finance, strong academic credentials, relevant professional experience, and the potential to grow into impactful leadership roles across the World Bank Group.

Visit our booth for more information on this program and how to prepare your application this summer.

Applications open June 15-July 15 for roles at the World Bank, IFC and MIGA (and re-open in August for roles at IFC and MIGA only).

Find out more at: [www.worldbank.org/ypp](https://www.worldbank.org/ypp)

## TTP plc

---

Discover The Technology Partnership (TTP) and the world of technical consulting. From brainstorming solutions to client problems to product research, prototype and development. This work brings together engineers and scientists to solve some of the world's hardest problems: from helping with the fight against cancer to advancing the autonomous car industry. This session will help you to find out about the world of Technology Consultancy, workplace culture and job applications. Discover how your degree can further a career in consulting at TTP, utilising your expertise and research skills to work on these problems in interdisciplinary teams and creating a real difference to the world.

## TVF Media

---

Committed to realising the creative potential of the 21st century media landscape. We encourage, at all times, the pursuit of intellectual and imaginative daring.

TVF Media creates and conveys new ideas in the most effective form. We use and develop the latest media technology, the most talented people and the most advanced systems to inform, educate, inspire, and entertain. Based in London, TVF Media operates worldwide, delivering projects and campaigns in more than twenty countries across the globe.

We produce documentary, web and multi-media programmes, provide production and post-production services, and distribute and manage programme rights. Drawing on our combined expertise, we offer clients a fully integrated in-house service. We develop and deliver campaigns in the medical and educational field, providing education, training and brand communication services. All of our divisions are award-winning. Our clients range from Channel 4, the BBC and BAFTA award winning directors, to Pearson Education, the British Red Cross and Cambridge University Press. We are committed to corporate social responsibility and actively support the Institute of Art and Ideas, a non profit cultural organization dedicated to new thinking.

## Unlocked Graduates

---

**Two years to become a leader. One opportunity to change society. And zero regrets.**

Reoffending is one of society's biggest issues. Nearly half of adult prisoners reoffend within one year of release. Your ambition and creativity could help turn this around. Funded and supported by Unlocked, many of our graduates start up projects aimed at rehabilitation and reforming prison policy. As frontline prison officers, graduates on the Unlocked Leadership Development Programme make it count.

**Unlocked**
