

SUMMER GRADUATE & INTERNSHIP FAIR 2026

 Tuesday 9 June

 14:30 - 17:00

 Careers Service,
56 Banbury Rd, OX2 6PA

www.careers.ox.ac.uk/summer-fair

Welcome to the Summer Graduate and Internship Fair 2026

Are you graduating soon and have not yet secured a job? Are you looking for an internship this summer? Meet recruiters from a range of sectors who are offering full-time jobs and internships starting this summer. Whether you haven't found a place yet, or haven't started looking, this is a great chance for you to explore available opportunities and careers.

EARLY ACCESS: Quiet Time at the Fair for disabled and neurodivergent students, 14:10 - 14:30

We want disabled and neurodivergent students to feel as comfortable and confident as possible when attending our careers fairs. The dedicated Quiet Time is designed to offer a calmer environment for disabled and neurodivergent students who may find large crowds, noise or queues overwhelming, or who may benefit from additional time or support when speaking with employers.

Tips for navigating the fair

- Use this booklet to plan your fair tactics. Check who is attending and read their booklet entry before you speak to them.
- Plan some questions to ask. For example:
 - What are the pros and cons of your work?
 - What tips can you give me to increase my chances of being selected for work experience or employment?
- Talk to as many people as you can.
- Remember to record who you spoke to and key points of your conversations.

For more information on how to make the most of a careers fair, [read our guidance](#).

Asymchem

Asymchem is a leading global CDMO with facilities in the USA, China, and the UK. Our European headquarters at Discovery Park, Sandwich, UK, is a state-of-the-art centre for small molecule R&D and cGMP manufacturing.

Backed by decades of pharmaceutical expertise and advanced technologies, we deliver end-to-end solutions that drive innovation, quality, and value for our partners worldwide.

INCLUSION: At Asymchem, we are committed to building an inclusive and diverse workplace where every individual feels valued, supported, and able to thrive. We believe diversity drives innovation and success, and we provide development opportunities to help our people grow in their careers.

DRUG DEVELOPMENT AND MANUFACTURING SERVICES

Capital One (Europe)

We're on a mission: to change the world of credit for better – one good thing at a time.

You might think of us as a credit card company, but we're just as much a technology business. At Capital One, we believe in doing a job that matters. Making an actual difference to the lives of our customers as well as those who work for us.

Join us as a Graduate or Intern on one of our Technology or Strategy Analyst Programmes and you'll get to make a real and valued contribution to wide-ranging projects that impact on people's lives.

You'll get great training and, as new doors open, there'll be no limits to what you can achieve.

It's challenging, for sure, but also hugely inspiring. And while we don't expect you to be anyone other than yourself, you need to be ready to listen, learn and bring your best self to work.

On top of a generous salary, all our Graduates and Intern students receive a joining bonus and a host of other great benefits.

But the best thing about working with Capital One is not the financial rewards. It's the sense of pride and purpose you feel when you make people's lives that little bit better; when you look in the mirror and say to yourself 'that's one good thing'.

FINANCIAL SERVICES

Citrine International Tax

Headquartered in Oxford with a strong network around the world, Citrine International is an independent firm of tax practitioners who specialise in helping individuals with their tax exposures in the UK and US.

We are leading the way in the cross-border tax sector in taking advantage of the latest technology to enhance both the service experienced by our clients and the experience of our staff at work.

We are always looking to meet with candidates who are interested to work with us and entry level roles for those with no tax expertise.

What we can offer you:

An ambitious company environment with aggressive goals to improve our client's experience and grow our business

A supportive and growth oriented environment where your input can improve the firm, and those around will help you learn and grow

A team of experienced professionals with deep knowledge of US, UK, and international tax matters

A path to develop your career by extending team members skill sets across technical knowledge of taxation, usage of the latest technology, and client facing skills

A culture of human connection - we collaborate closely as a team - and we work with clients on some of the most challenging and intimate aspects of their financial lives. The work you do will really matter to those you work with.

Find out more at: <https://citrinetax.com/join-the-team>

Envision

Envision is a leading sustainability, energy and building services design consultancy that provides specialist support towards sustainability within the built environment. Operating for 13 years, with 30 staff across our London and Oxford offices, we have grown to become a well-established company. Unlike many consultancies that have developed sustainability as a 'support service' as part of their wider advisory services, Envision's sole goal is to provide market leading advice on sustainability within the built environment. We provide end-to-end support and pride ourselves on fostering a flexible, creative and fun working environment.

We bring together a range of technical disciplines to advise clients on their ESG policies, to manage their real estate portfolio and develop sustainability and energy and net zero strategies for new and existing developments. We combine this with our expert team of building service engineers to deliver low carbon solutions for our clients.

As part of our sustainability offering, our services include the provision of a full range of environmental assessment methods for both new and existing developments, BREEAM (including In-Use), Home Quality Mark, CEEQUAL, WELL, FitWel and Building with Nature. We also undertake Whole Life Cycle Assessments, which feeds into our strategies for achieving Net Zero.

We take pride in our pro-active approach, supporting our clients with close and tailored support. Our pragmatic and hands-on approach means that we are retained by the largest UK property funds, publicly listed developers as well as leading constructors.

SUSTAINABILITY, ENERGY AND BUILDING SERVICES DESIGN CONSULTANCY

Future Teacher Training

We are a school-centred initial teacher training provider based in London and Hertfordshire, working in partnership with high-performing schools to develop the next generation of exceptional teachers. We are driven by a commitment to academic excellence and our core ethos: Freedom Through Education — opening doors for individuals and transforming communities through the power of knowledge.

Our programmes place trainee teachers at the heart of school life from day one, combining rigorous, research-informed practice with hands-on classroom experience. Supported by expert mentors and outstanding practitioners, trainees are equipped to teach with confidence, clarity, and intellectual depth.

We offer both salaried (paid) and bursary-funded routes into teaching across a wide range of subjects, making the profession accessible to talented graduates from all backgrounds. Whether you are passionate about your subject or motivated by the impact you can have, Future Teacher Training provides a clear, supportive pathway into a meaningful and ambitious career in education.

EDUCATION

Haigh Group

Haigh Group is a specialist equipment manufacturer delivering benefits in healthcare and water quality worldwide. We're committed to pushing the boundaries of innovation to deliver impactful solutions that improve the lives of people and the health of our planet. We're dedicated to simplifying compliance and making our systems easy to use and maintain, even in highly regulated sectors. Our diverse client base includes around half of NHS hospitals and all UK wastewater companies, impacting millions of lives daily.

A core focus of the business is the creation of new technologies and intellectual property that underpin future products. Our small engineering team combines software, simulation, and practical engineering to rapidly explore and validate new ideas.

INCLUSION: At Haigh, treating colleagues, customers, and other stakeholders as we would wish to be treated ourselves is not just an important part of our company culture but we believe it to be core to our sustained success. We value trust, enthusiasm, creativity, skill, and critical thinking, supported by a robust and embedded equal opportunities policy. We do not have recruitment quotas or special consideration related to achieving diversity yet our team composition is consistently above national sector averages when it comes to gender, ethnicity, disability and neurodivergence; we welcome and accommodate talent.

Find out more at: <https://haigh.co.uk/contact-us.html>

ENGINEERING & MANUFACTURING

Hudson River Trading

NOT EXHIBITING

Hudson River Trading is where cutting-edge technology meets world-class trading. We hire the sharpest minds across disciplines—math, computer science, physics, engineering, and more—and work together to rapidly scale solutions to the toughest problems in tech and trading within our world-class computing environment. At HRT, you’ll find quiet excellence amidst an egoless pursuit of winning solutions, where the best ideas rise quickly, teamwork is second nature, and your impact is only limited by your creativity. Together, we are building the future of trading.

Our internship and graduate Software Engineering and Quant Research opportunities for 2027, starting in our London office will open this August.

FINANCIAL SERVICES

Innovia Technology

Do you want to continue learning, remain engaged with the subject you have studied, work in industry, and still have a social life?

Innovia Technology is a friendly Cambridge-based innovation consultancy with a focus on work-life balance.

We're inventors for hire who work in multidisciplinary teams to understand, create and problem-solve for some of the world's biggest global companies. Clients like Procter & Gamble, PepsiCo, The North Face, Pfizer, KraftHeinz, Johnson & Johnson, and Jaguar Land Rover trust us to help them invent the future.

Our approach is holistic: we integrate the knowledge of experts in different fields to gain unique and well rounded insights. This means our project teams assemble people from e.g. engineers, behavioural scientists, theoretical physics, organic chemistry, microbiology, product design, veterinary surgery (and many more) to work together and rigorously apply their specialist training to complex real-world problems.

Both consultants and interns work on projects spanning industries from energy and fuel, to food, clothing, transport, medical devices and consumer goods - allowing you to gain broad insight into a variety of sectors and topics.

New roles are live! Head to our website to explore them.

CONSULTANCY

InstaLily

InstaLily is coming to London — and we want Oxford to build it with us. We're a New York-based AI startup at the frontier of agentic AI, and we're setting up our European engineering hub right here in the UK. This is your chance to join a founding London team building autonomous agents that transform how enterprises work.

The role: Software Engineer: You'll work as a Forward Deployed Engineer — the first point of contact for our European clients. Get under the skin of each business, identify where agentic AI can reshape their workflows, and build the custom solutions to match. This is engineering at the edge of where AI meets real enterprise problems.

What makes this different: As a founding member, you'll work directly with the London Lead and collaborate constantly with our NY team. You'll have genuine freedom to identify new verticals, shape how the team operates, and help write London's playbook from day one. Not a role — a culture you help build.

Who you'll work with: A New York-headquartered team drawn from top AI programs across the US and Europe — Princeton, MIT, Penn, Berkeley, Chicago, Cornell — with mentorship from senior executives at some of the world's most iconic brands, who happen to be our customers.

We're looking for: Final-year and recent graduates in Computer Science, Engineering, Mathematics, Physics, or related fields. Strong academics (First Class preferred), fluency in Python and JavaScript, curiosity about AI and ML, and the kind of mind that thrives in fast-moving, ambiguous environments. 0–2 years of experience. Available to start full-time by July 2026.

Come find us at the fair. If you've ever wanted to build something enduring from the start, this is the moment.

TECH | AI

Keystone Tutors

Our mission statement is to professionalise and legitimise private tutoring; our ambition is to help our students to perform at their best, building long-term academic resilience and life-long intellectual curiosity.

Since 2007 Keystone has helped over 10,000 students fulfil their educational potential. Uniquely, Keystone exclusively employs 60 full-time UK based tutors and also represents a highly select pool of freelance tutors.

With offices in London, Hong Kong and Singapore and recommended by head teachers of top independent schools, we have an exceptional reputation for helping students achieve their best; delivering outstanding results, building confidence and instilling life-long intellectual curiosity.

INCLUSION: Due to the flexible nature of tutoring at Keystone Tutors, it can be a great job to fit around specific needs and timetables for self-employed tutors are at the individual's discretion.

Find out more at: www.keystonetutors.com/vacancies

EDUCATION

Malaberg

Do you want to become a world-class writer?

To change the lives of millions with your words?

If so, Malaberg is for you.

We're a fast-growing scale-up in direct-to-consumer marketing, transforming lives with our health, wellness, skincare, and pet care brands.

What's more, we've seen explosive growth in the last few years. Today, we're a team of over 100 extraordinary individuals. Across marketing, media buying, video production, customer experience, in-house manufacturing, and new product development.

Creating breakthrough products, which reach hundreds of thousands of people.

In hiring our next Junior Copywriters, we're looking for those with excellent, demonstrable writing skills. As well as innovative ideas, insatiable curiosity, and the ability to tell a great story.

Does this and a competitive starting salary *with* uncapped commission sound interesting?

Then come and find us at the Malaberg stand for more information...

BANKING & INVESTMENT

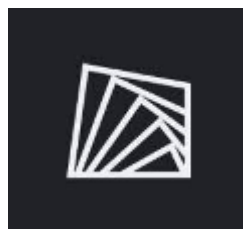

Milvus Advanced

Milvus Advanced is an Oxford-based advanced materials company developing next-generation nanoalloys that reduce reliance on scarce and expensive critical metals. Our technology delivers high-performance alternatives for applications in electronics, energy, industrial coatings, and advanced manufacturing while helping build more sustainable and resilient supply chains.

We are engineering innovative materials that match the functionality of traditional precious and critical metals at a fraction of the cost, enabling manufacturers to improve performance, reduce procurement risk, and accelerate the transition to a more sustainable industrial future.

At Milvus Advanced, we bring together expertise in materials science, nanotechnology, chemistry, and engineering to solve some of the most pressing challenges in resource availability and industrial sustainability.

Learn more about our work, career opportunities, and mission to transform advanced materials for industry at: <https://www.milvusadvanced.co.uk>.

BANKING & INVESTMENT | DATA

The Phoenix Partnership

TPP is a global digital health company. With over 8,000 organisations using our solutions to care for over 50 million patients, our software is used across all health and social care settings, including GPs, emergency departments, hospitals and mental health services. This means that wherever and whenever a patient needs care, a detailed and up-to-date record is available. No other company has a digital healthcare solution on this scale. Our database is one of the largest in the world. It processes a billion transactions daily – more than the London Stock Exchange and Visa combined.

INCLUSION: TPP is proud to support equality, diversity and inclusion in our local community and in society more widely. We are determined to make sure this is reflected in our workforce, and are committed to preventing unlawful and unfair discrimination of any kind. At TPP, our aim is for all of our employees and job applicants to be given equal treatment and opportunities, and for our staff to be representative of all sections of society and of our diverse customer base.

TECH | DIGITAL HEALTH

TVF Media

TVF Media is a diversified group with five core divisions: TVF International, TVF Communications, TVF Digital, TVF Central Operations, and the Institute of Art and Ideas.

We create and convey new ideas in the most effective form, operating across a range of sectors including interactive digital media, medical communications, television programming, post-production, and the arts. We use and develop the latest media technology, the most talented people and the most advanced systems to inform, educate, inspire, and entertain.

Based in London, TVF Media operates worldwide, delivering projects and campaigns in more than twenty countries across the globe. All of our divisions are award-winning.

Our clients range from Channel 4, the BBC and BAFTA award winning directors, to Pearson Education, the British Red Cross and Cambridge University Press.

INCLUSION: TVF is proud to be an equal opportunity workplace, and actively support and encourage people from a variety of backgrounds, experiences, and skill sets to join us and help shape what we do. Therefore, we are committed to providing reasonable adjustments during the interview process to ensure all candidates have an equal opportunity to demonstrate their abilities.

ARTS | MEDIA

Ufenau Capital Partners

Ufenau Capital Partners is a privately-owned Swiss Investor Group headquartered at Lake Zurich which is focused on the acquisition of majority stakes in small and medium sized service companies in German speaking Europe, the Iberian Peninsula, the Benelux region, Poland and Great Britain.

We complement the companies' organic growth through a systematic buy-and-build strategy and form alliances with entrepreneurs at eye-level.

Our team, which now consists of over 80 professionals, is made up of personalities who are there for each other, who support each other, who move together in one direction, who give each other clear feedback, who have a high degree of personal responsibility, and, above all, who together have fun and enjoy what we do.

Since our inception in 2011, we have completed c.500 transactions globally and manage assets under management of more than €5 billion. This makes us not only the fastest-growing private equity company in the DACH region, but we have also been awarded PEX's "Best German, Austrian & Swiss LBO Fund".
